The above Distribution Delivery Service and Electricity Supply Service charges apply to those Customers who have the Cooperative as their energy service provider.

DETERMINATION OF BILLING DEMAND

The Distribution Delivery billing demand shall be the greatest of: 1) one hundred percent (100%) of the maximum 15-minute kilowatt demand to the nearest whole kW established by the Customer during the month for which the bill is rendered; 2) forty percent (40%) of the maximum 15-minute kilowatt demand established in the preceding eleven (11) months; or 3) the contract demand.

The ESS billing demand shall be the maximum 15-minute kilowatt demand to the nearest whole kW established by the Customer during the month for which the bill is rendered.

POWER FACTOR ADJUSTMENT

The Customer agrees to maintain unity power factor as nearly as practicable. Where the overall power factor of a Customer's load is less than ninety percent (90%) lagging, the Cooperative may require the Customer to install, at the Customer's expense, equipment to correct the power factor. Should the Customer fail to correct power factor within six months of receiving notice from the Cooperative, the Cooperative will, at the expense of the Customer, install switching capacitors on its own distribution system to correct the Customer's power factor. Should the Cooperative be required to install switching capacitors to correct the Customer's power factor, the Customer will be provided written notice of the estimated costs for which the Customer will be charged in accordance with Schedule EF.

POWER COST ADJUSTMENT CLAUSE

The amount of charges calculated under the above rates for Electricity Supply Service are subject to increase or decrease under provisions of the Cooperative's Power Cost Adjustment Rider, Schedule PCA-1.

PRIMARY SERVICE

If service is furnished at primary distribution voltage, a discount of \$1.00 per kW shall apply to the demand charges under Part I of the Monthly Rate.

MINIMUM MONTHLY DISTRIBUTION DELIVERY CHARGE

The minimum monthly charge for distribution delivery service shall be the higher one of the following charges as determined for the Customer in question:

1. The minimum monthly charge shall not be less than \$1.00 per kVA of actual transformer capacity required.
2. The minimum monthly charge specified in the contract for service.
